After the app installs. You are ready to go.

Clicking photos by phone

Step1: Open menu and find the Camera App.

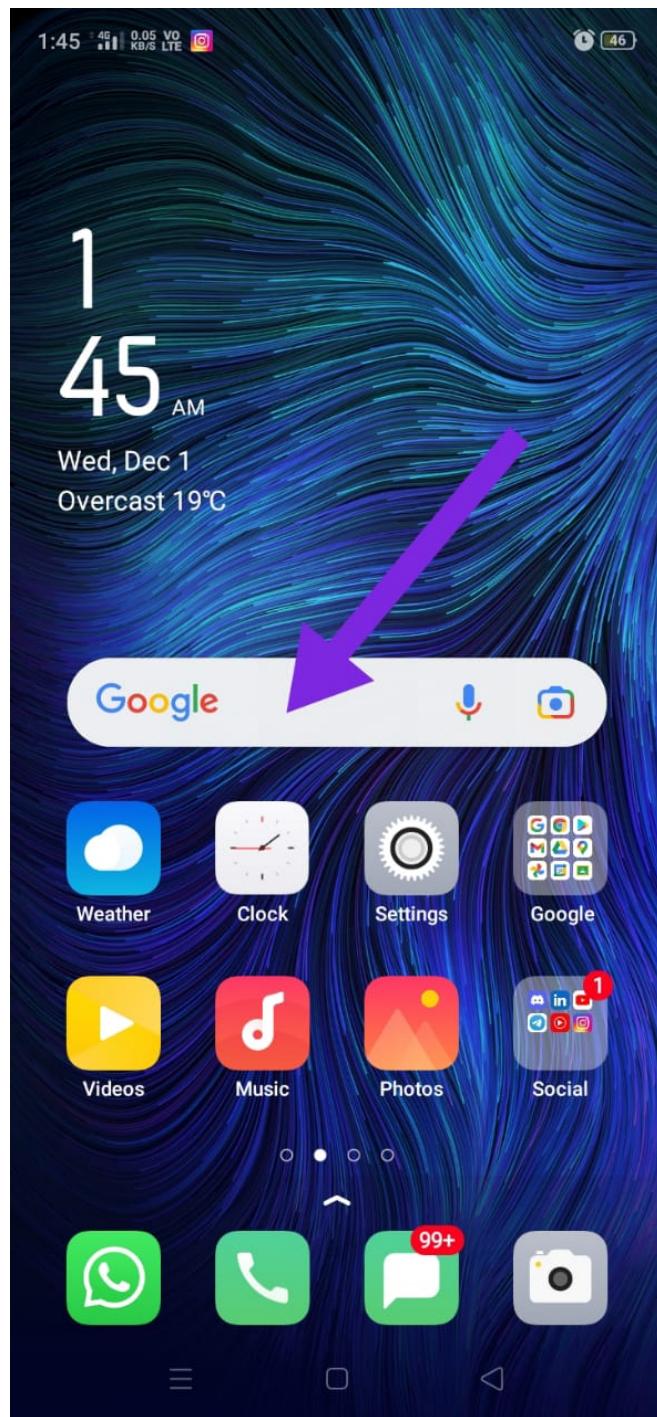

Step2: Click on the large white circle to click the Photos.

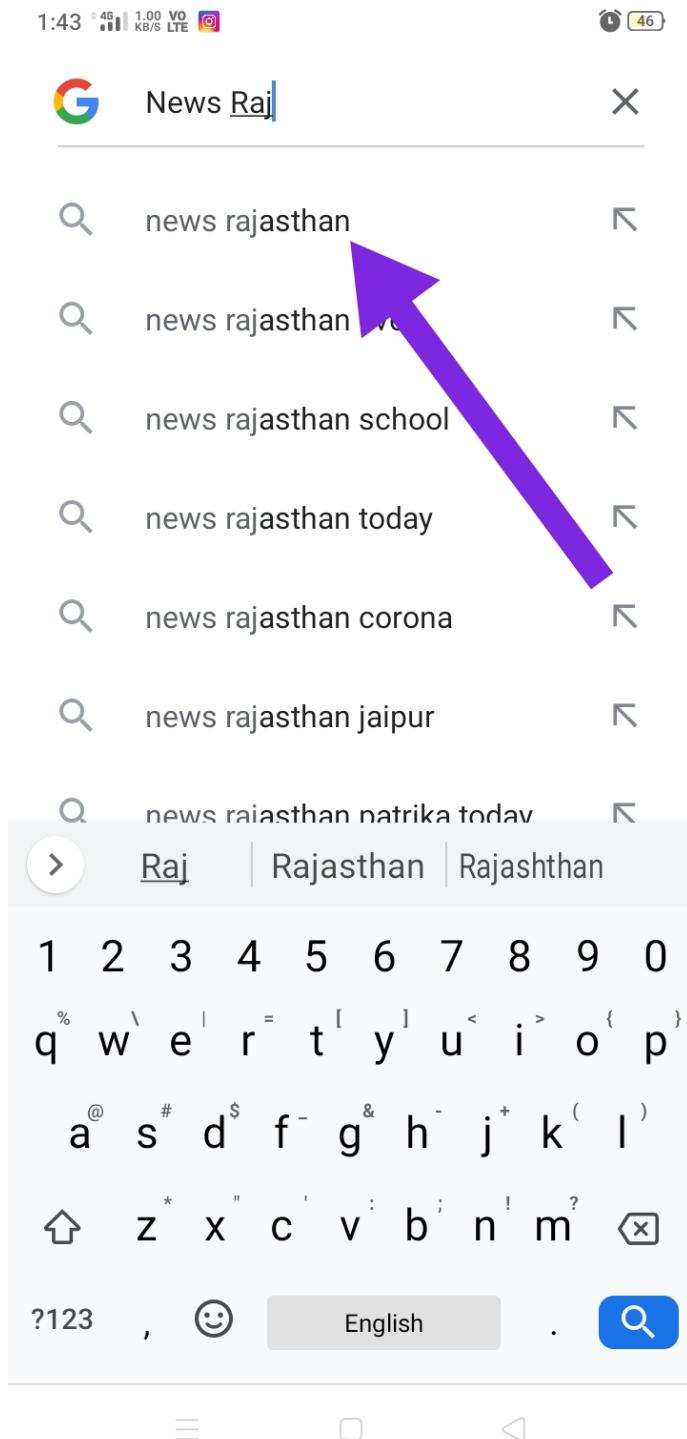

Make a Google Search

Step1: Click on the Google Search Box on the screen. Google will open.

Step2: Type the term to be searched and click on the search button of the keyboard

Step3: The google search opens for the term.

The screenshot shows a mobile Google search interface. At the top, the status bar displays the time (1:44), signal strength, battery level (11.0 VO), and network (KB/S LTE). The Google logo is centered above a search bar containing the query "news rajasthan". To the right of the search bar is a user profile icon. Below the search bar are navigation tabs: All (underlined), News, Maps, Images, Shopping, and Video. Underneath these tabs are three local search suggestions: "न्यूज़ राजस्थान", "राजस्थान की ताजा न्यूज़", and "ईटीवी राजस्थान न्यूज़".

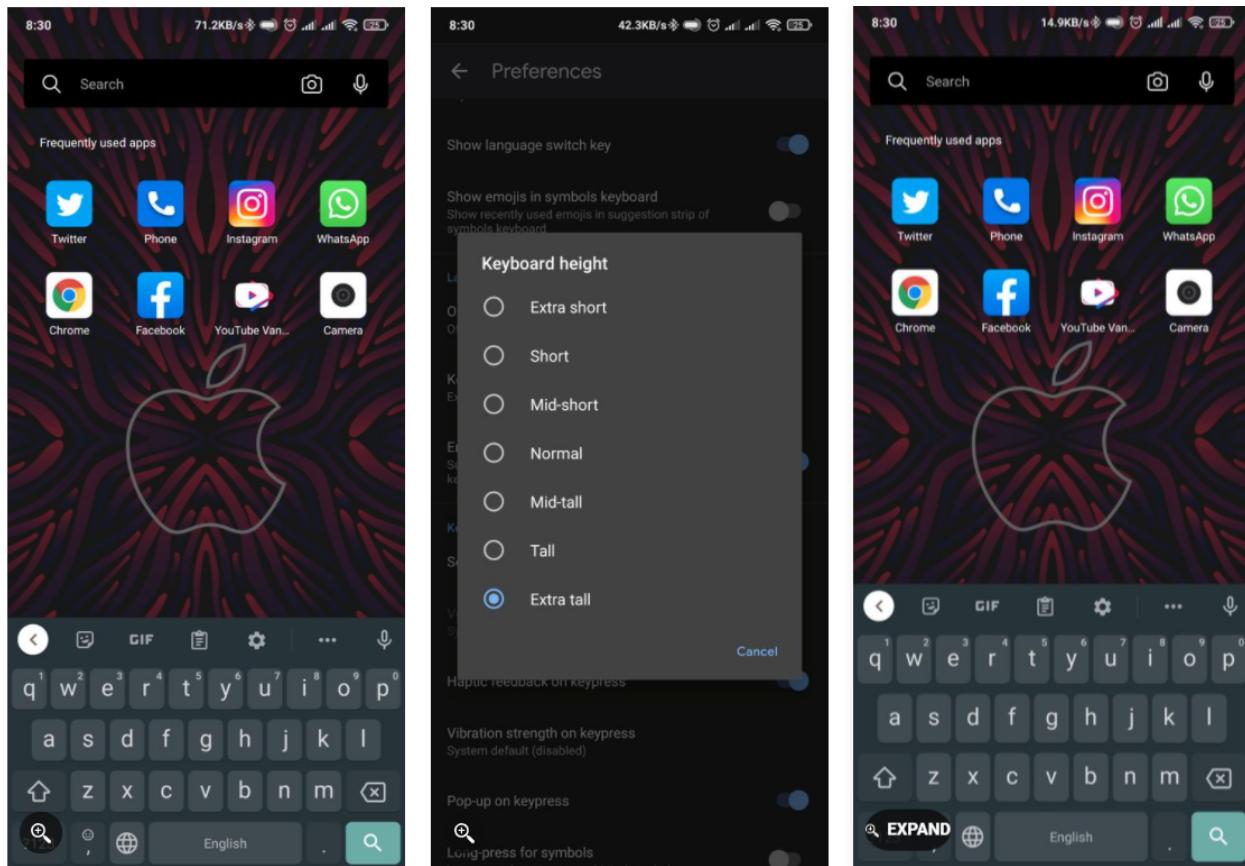

The main content area starts with a "Top stories" section. A purple arrow points from the text "Rajasthan: बर्खास्त SH... जाखड़ की 'बेगुनाही' की खुता पाता सामने आया तस्करों को भगाने का VIDEO" towards the "Discover" icon at the bottom. This section includes a thumbnail image of a person in a blue shirt, the publication time ("3 hours ago"), and a snippet of the news story.

Below this is another news card for "फरार लेडी सिंघ धूमधाम से रचाई अस्कर से 10 लाख रुपये" published "1 day ago".

At the bottom of the screen are four navigation icons: "Discover" (star), "Snapshot" (camera), "Search" (magnifying glass), and "Collections" (bookmarks).

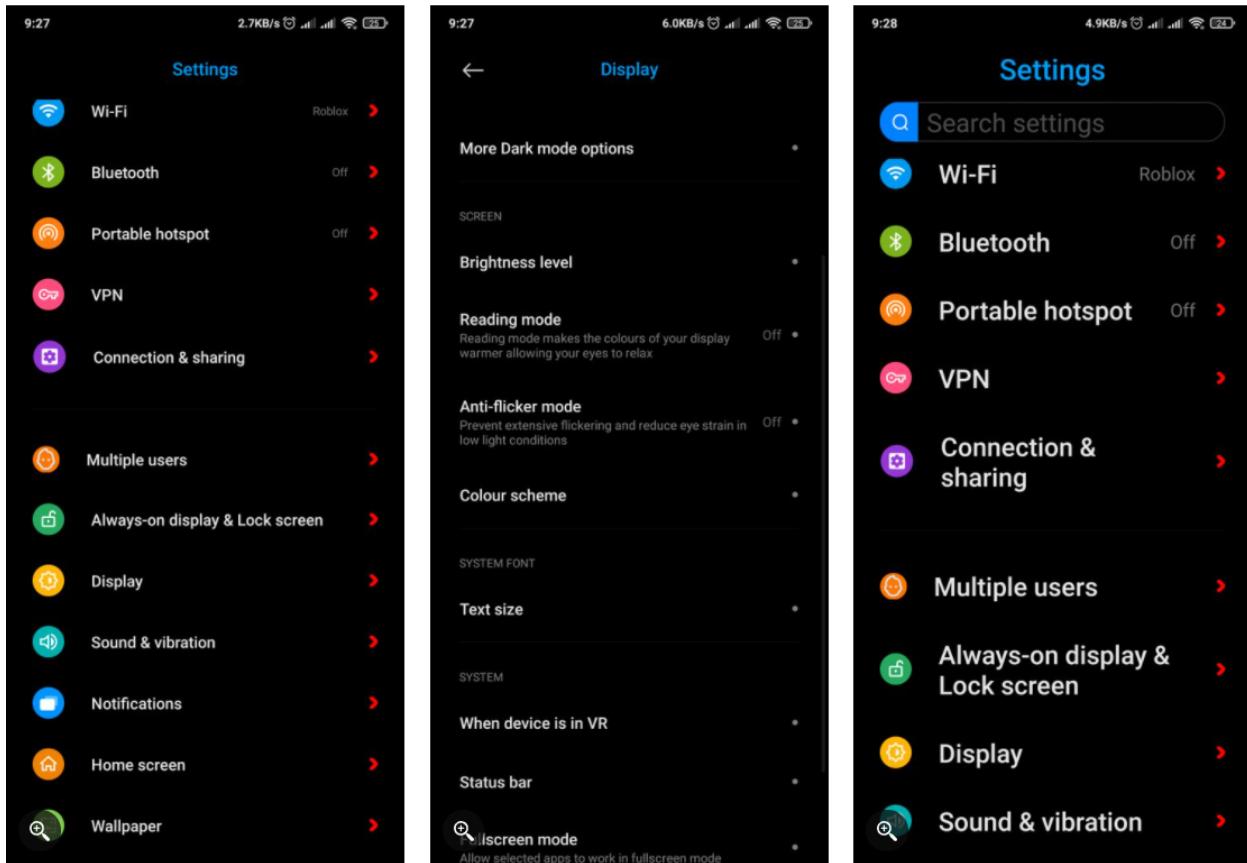

Enlarge the Keyboard Buttons

1. First, open any app and tap on a place where you can type some text. The keyboard will appear.
2. Once the keyboard appears, you will be presented with the usual layout, including a gear icon.
3. Tap the **gear icon**. A settings page will appear from where you can customize Gboard.

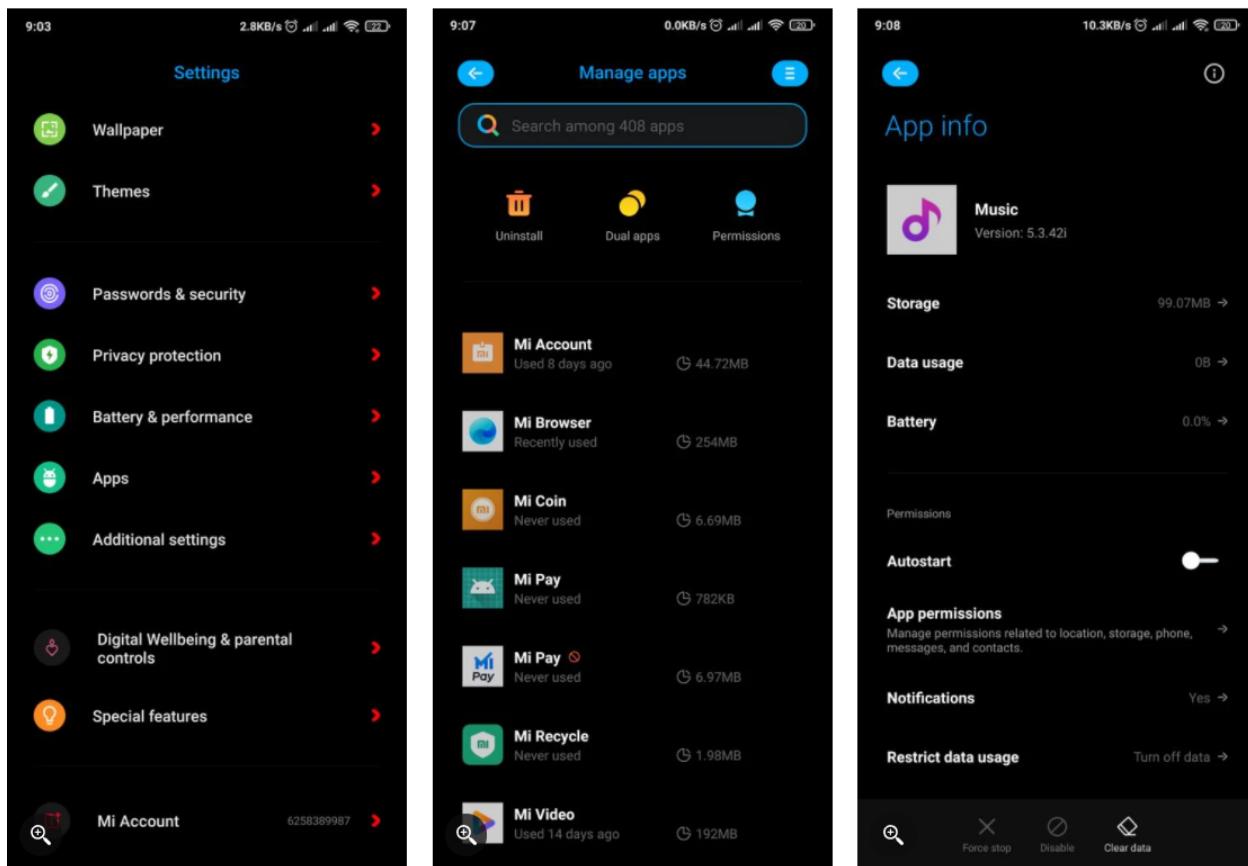

Increase Text Size Across the System

1. Open your Android phone's **Settings** app.
2. Go to **Display**.
3. Scroll down to **System font** and tap **Text size**.
4. Adjust the text size to a larger alternative.

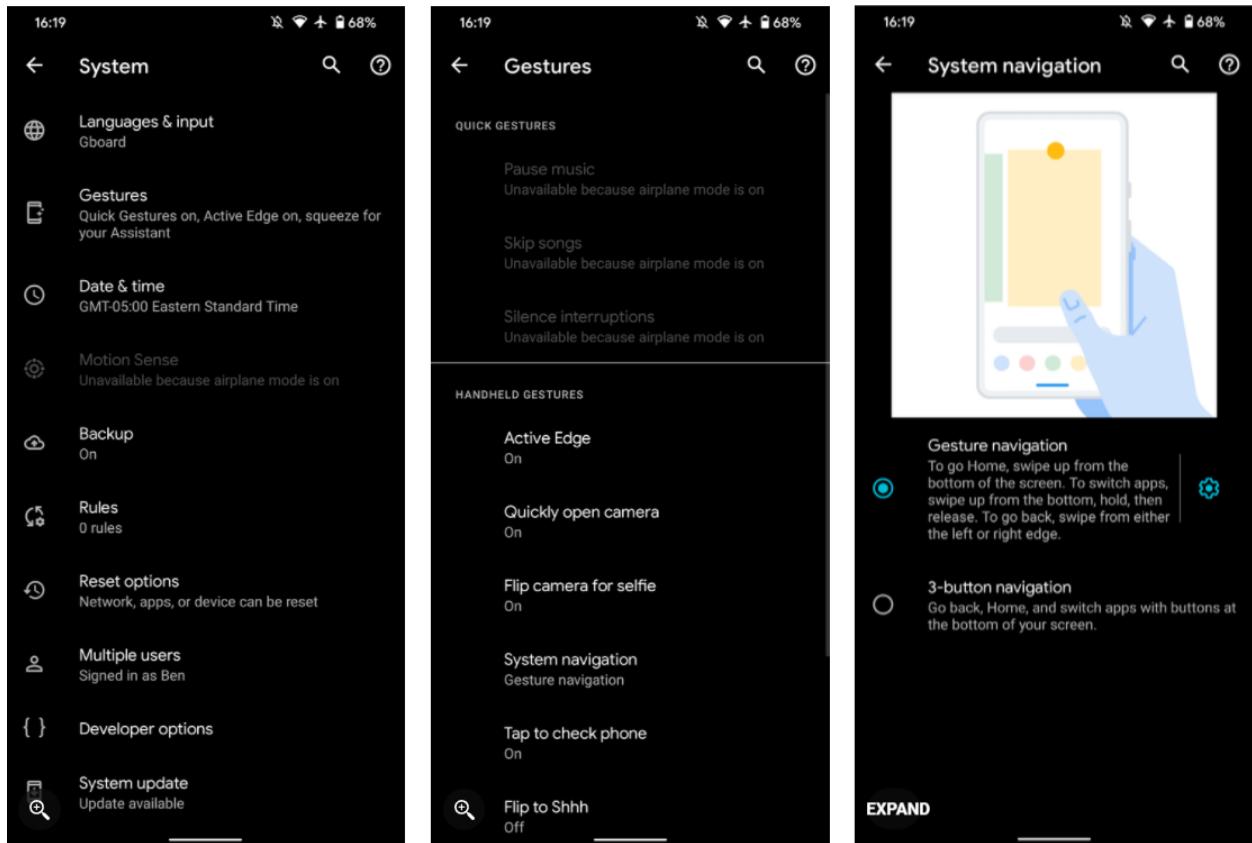

Uninstall or Disable Unwanted Apps

1. To uninstall an app, open your phone's Settings and go to **Apps > Manage apps**.
2. Again, your device may have a slightly different way of accessing this setting.

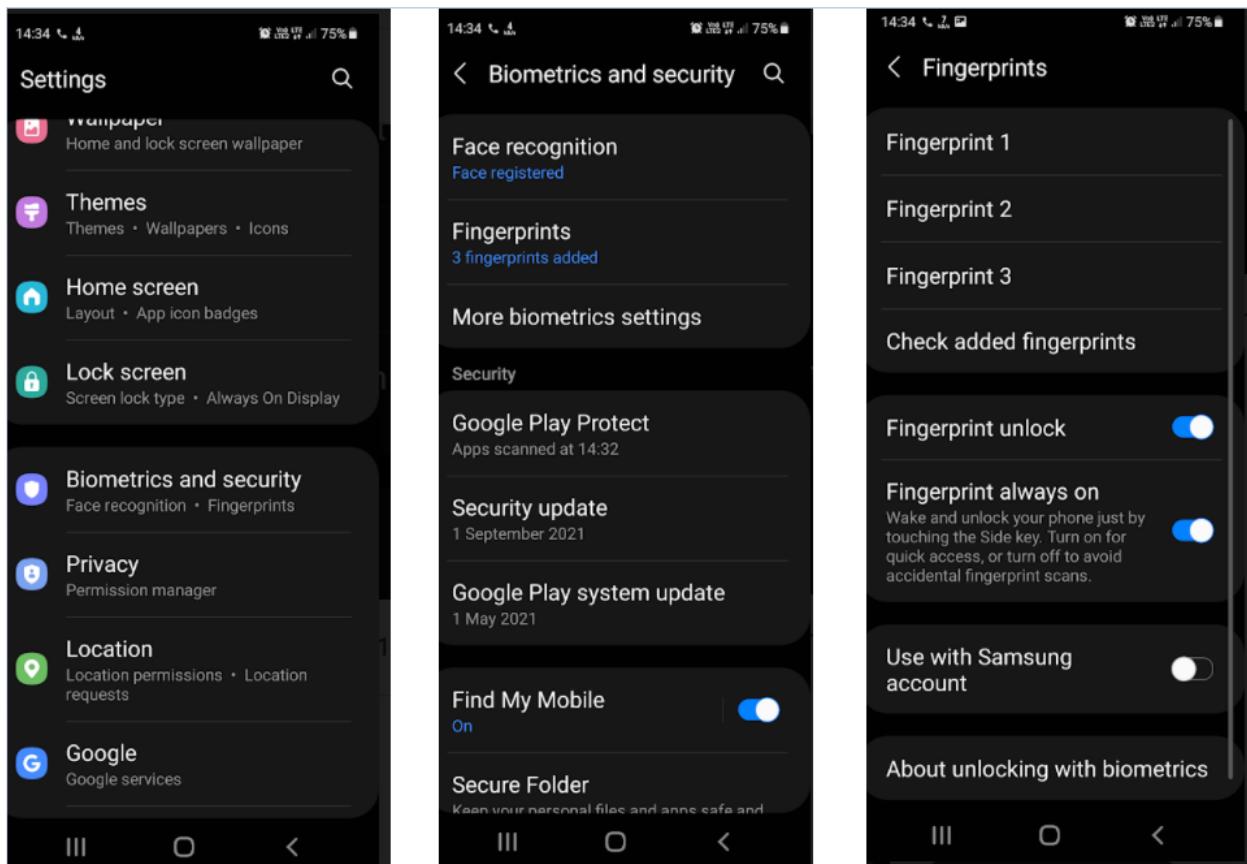

Turn Off Gesture Navigation

1. Open your device's Settings app and go to **System > Gestures > System navigation**.
2. From here, select the classic 3-button navigation style.

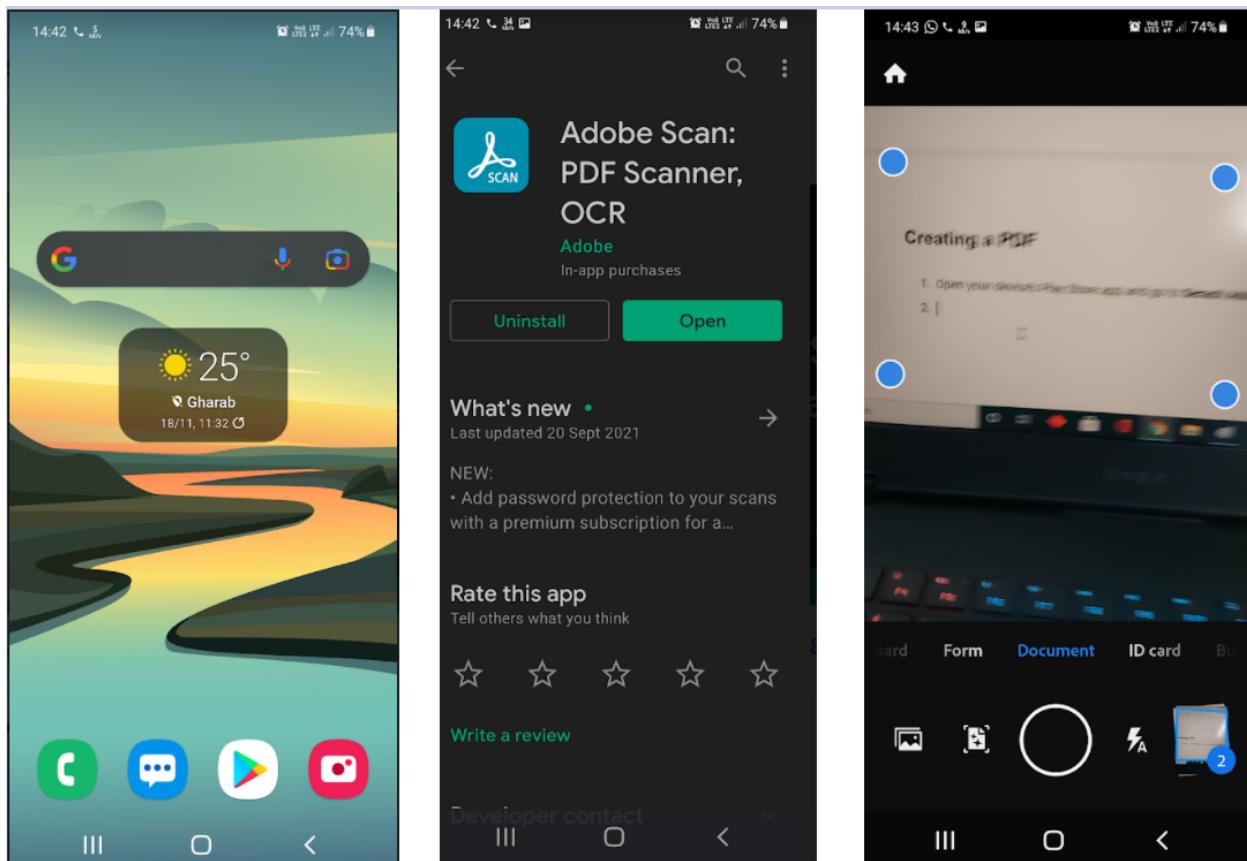

Setting up Biometrics

1. Open your device's Settings app and go to **System >Biometrics and security.**
2. Click Face recognition and set up you face
3. Below that find the Fingerprints option to set up to 5 fingerprints.

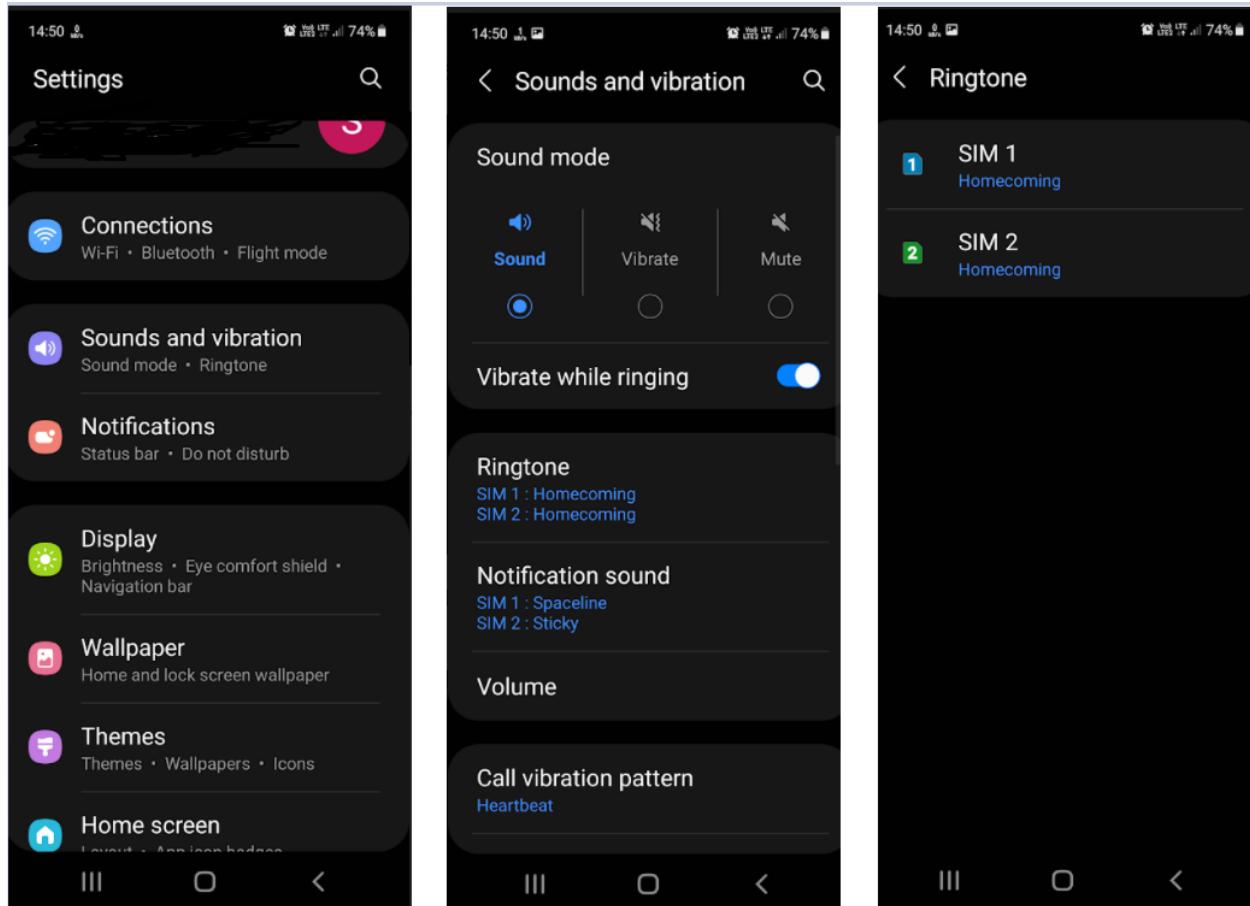

Creating a PDF

1. Open your device's Play Store app and go to **Serach Adobe Scan**.
2. Open the app and point your camera at the document to be scanned.
3. The app will automatically detect a document and take a photo and convert it to PDF.

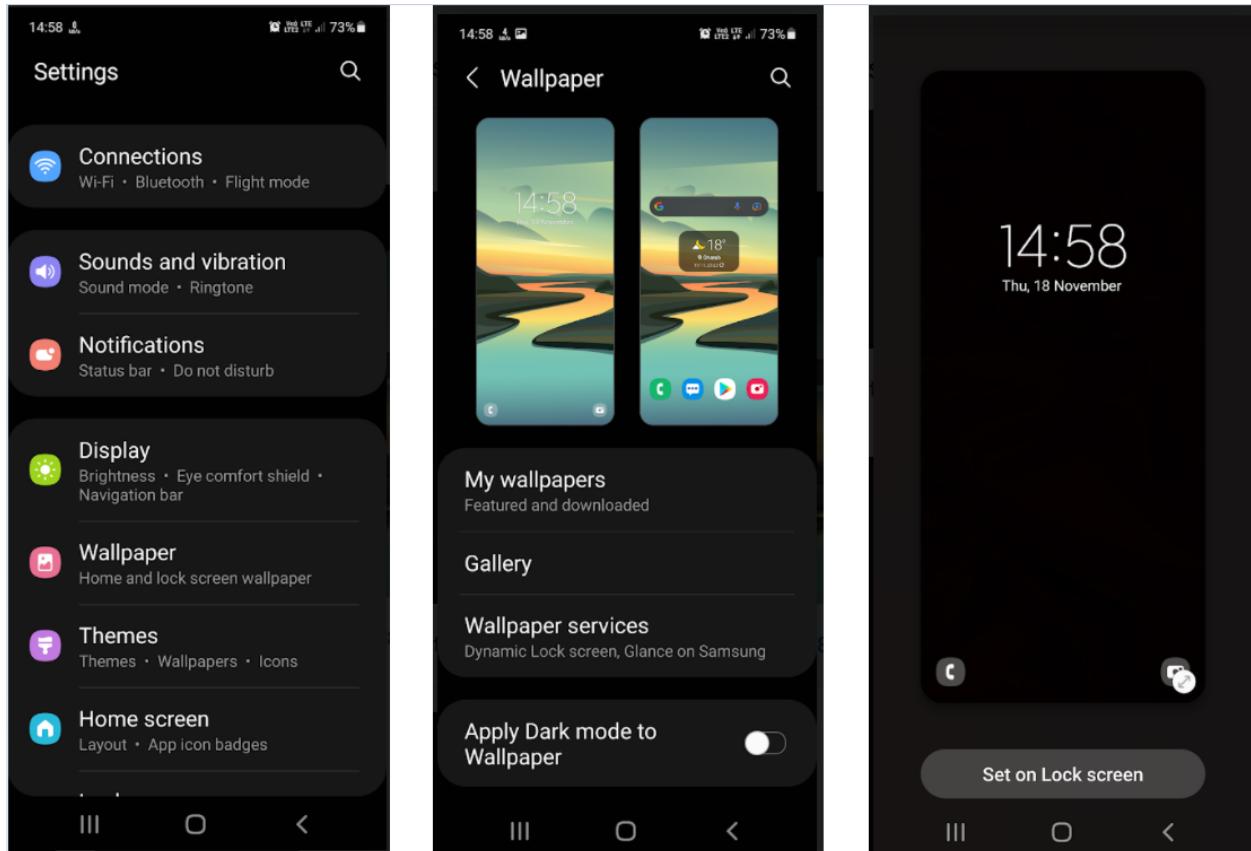

Changing Ringtone

1. Open your device's Settings app and go to **System > Sounds Settings > Ringtone.**
2. You can customize the ringtone for both SIMs.
3. Furthermore, you can customize ringtones for specific contacts too.

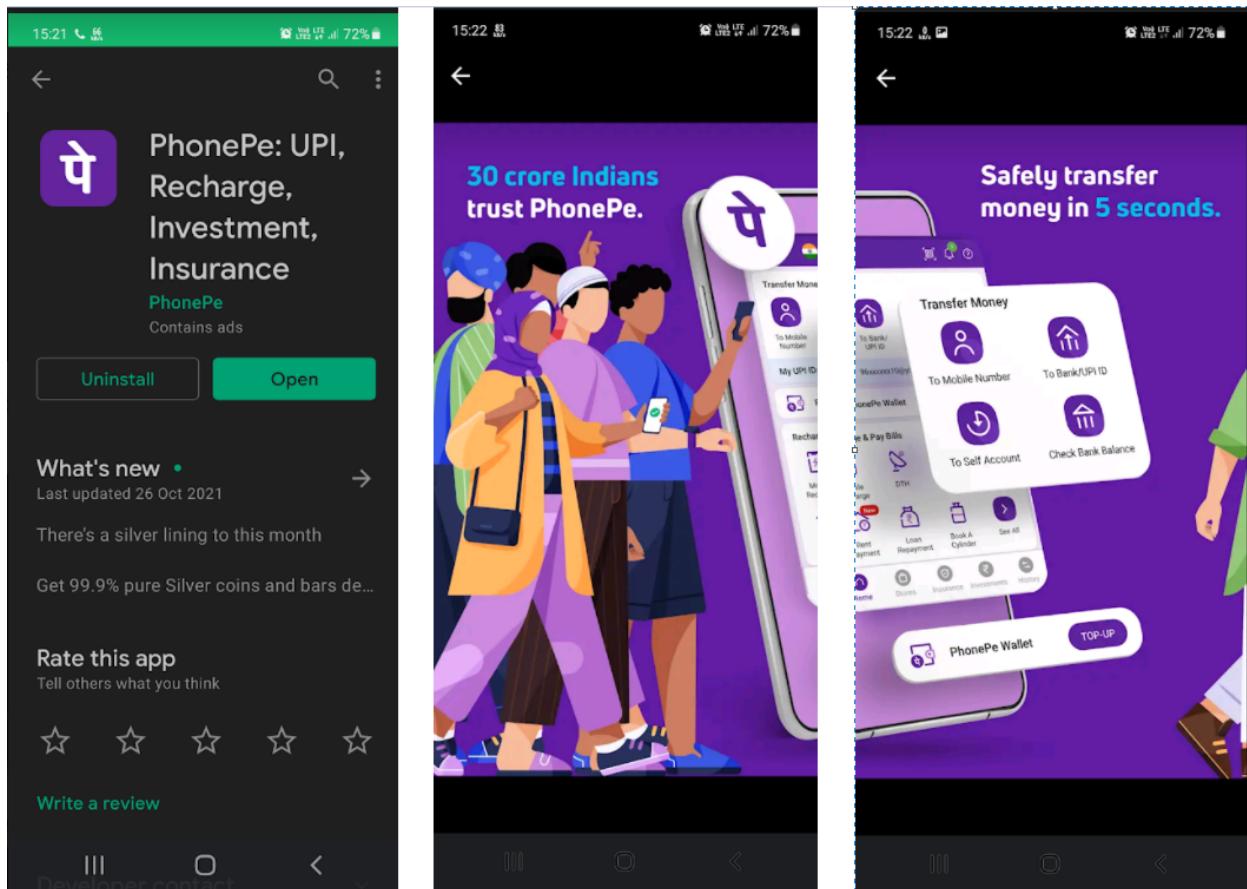

Changing Wallpapers

1. Open your device's Settings app and go to **System >Wallpapers>Home Screen and Lock Screen Wallpaper.**
2. You can customize the Wallpapers for both the Homescreen as well as the Lock screen.
3. Furthermore, you can apply Live Wallpapers too (but it costs more battery).

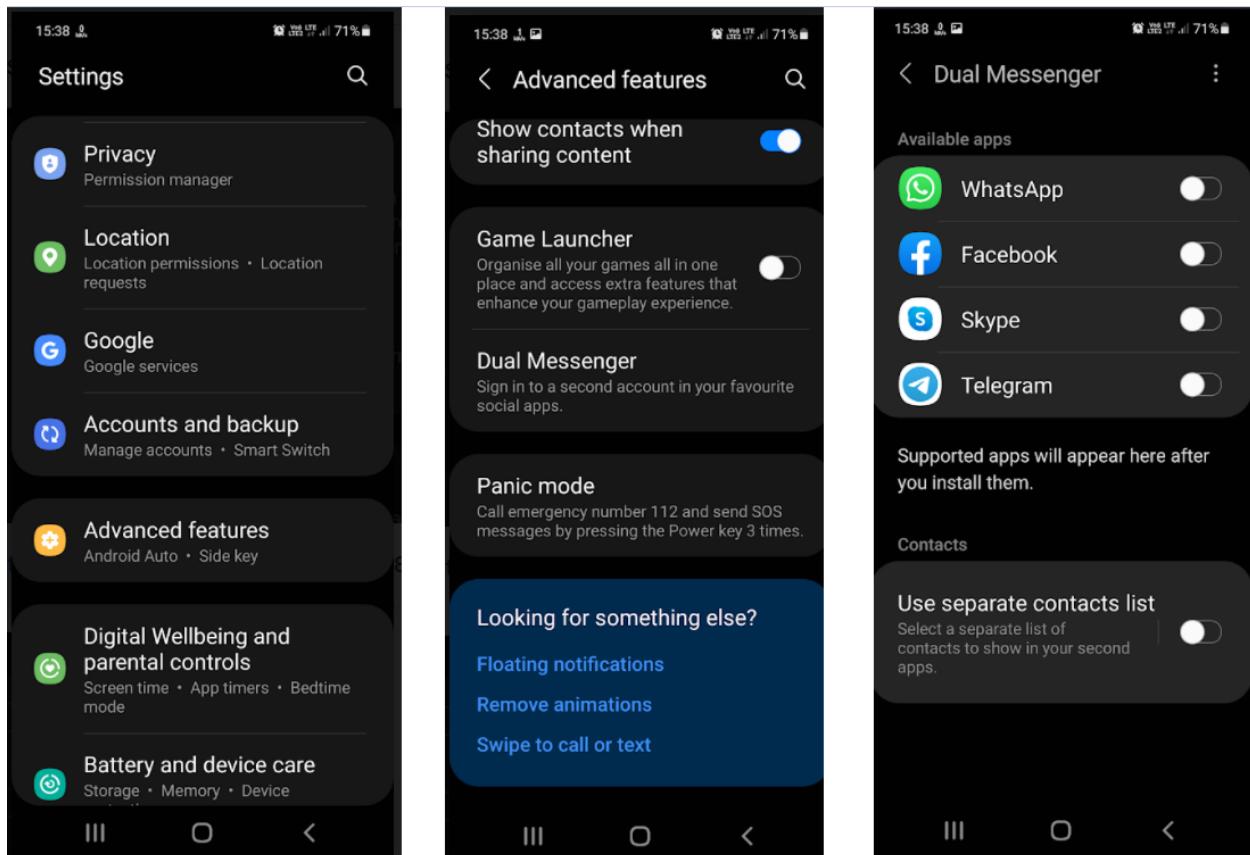

Setting up UPI

1. Open your device's Play Store and search for any UPI app of your choice; PhonePe, GooglePay, Paytm.
2. Enter your Phone Number and choose the Bank Account linked to your Phone number after successfully verifying your details.
4. Now you can make payment directly from your Contacts, QR codes at shops and to UPI ids.

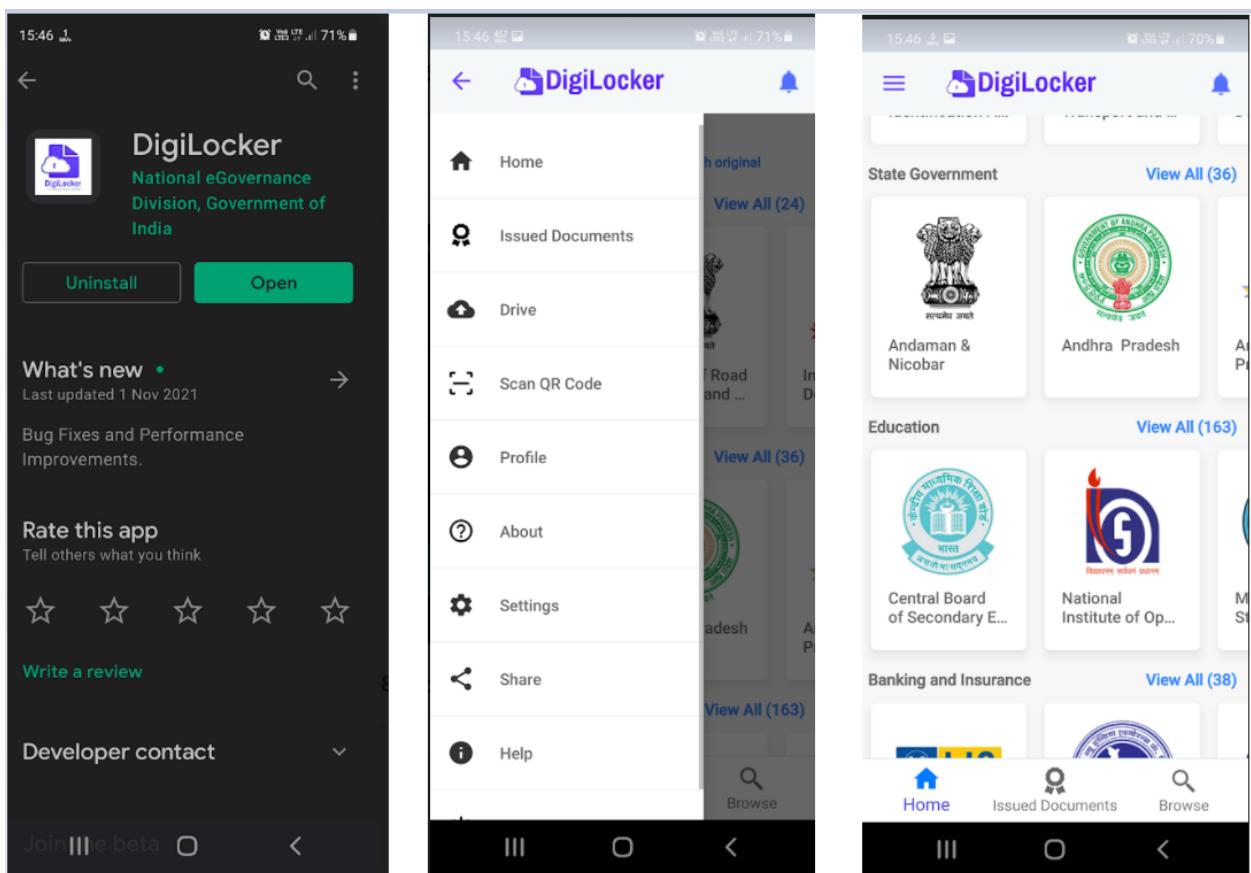

Creating double instances of Apps

1. Open your device's Settings app and go to **System >Advanced Features>Dual Messenger.**
2. Select the app you'd like to use 2 different accounts for.
3. The app will be automatically installed automatically.
4. Log in with your other account credentials, ex. For Whatsapp use a different number.

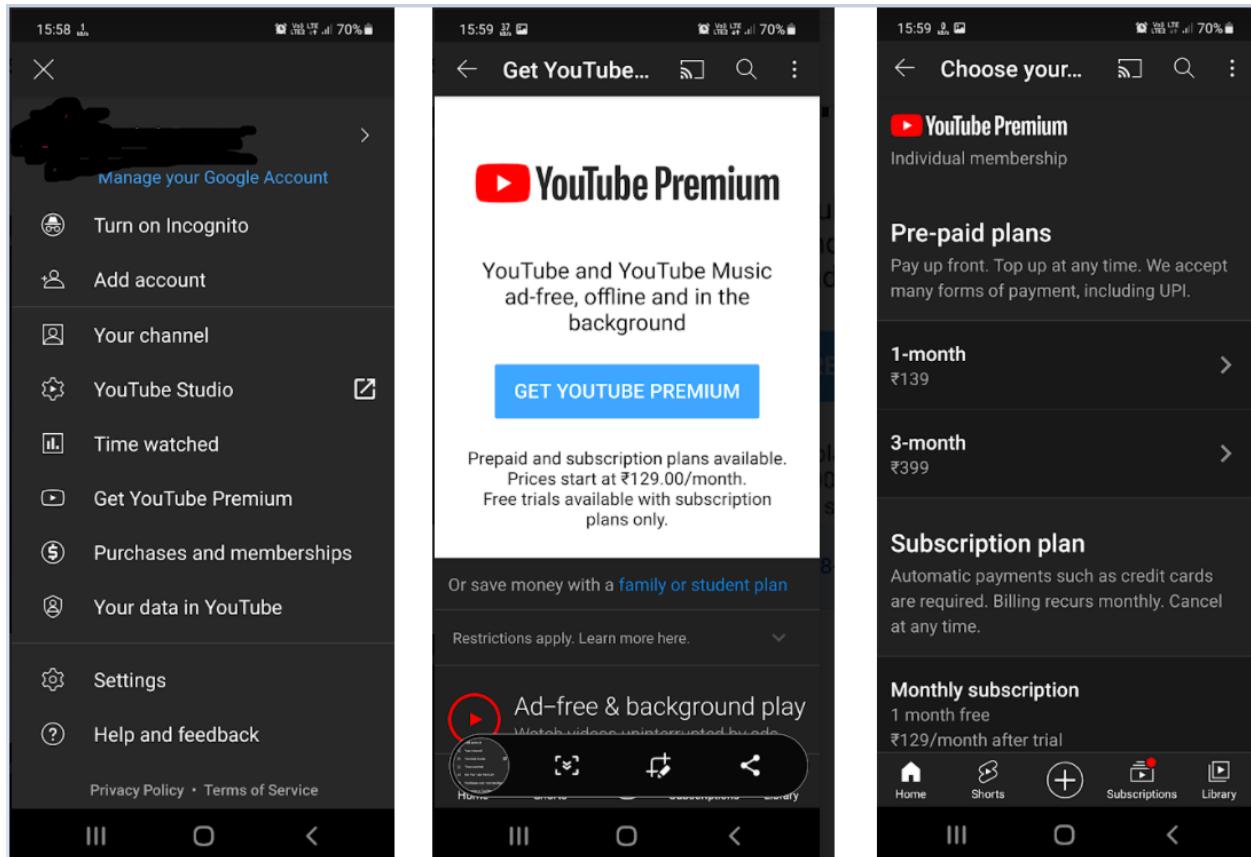

Using DigiLocker

1. Open your device's Play Store and search for DigiLocker
2. Install the app and Sign-Up using your phone number linked to your Aadhar Card.
3. Search for your documents in the app and download them on your device's local storage.

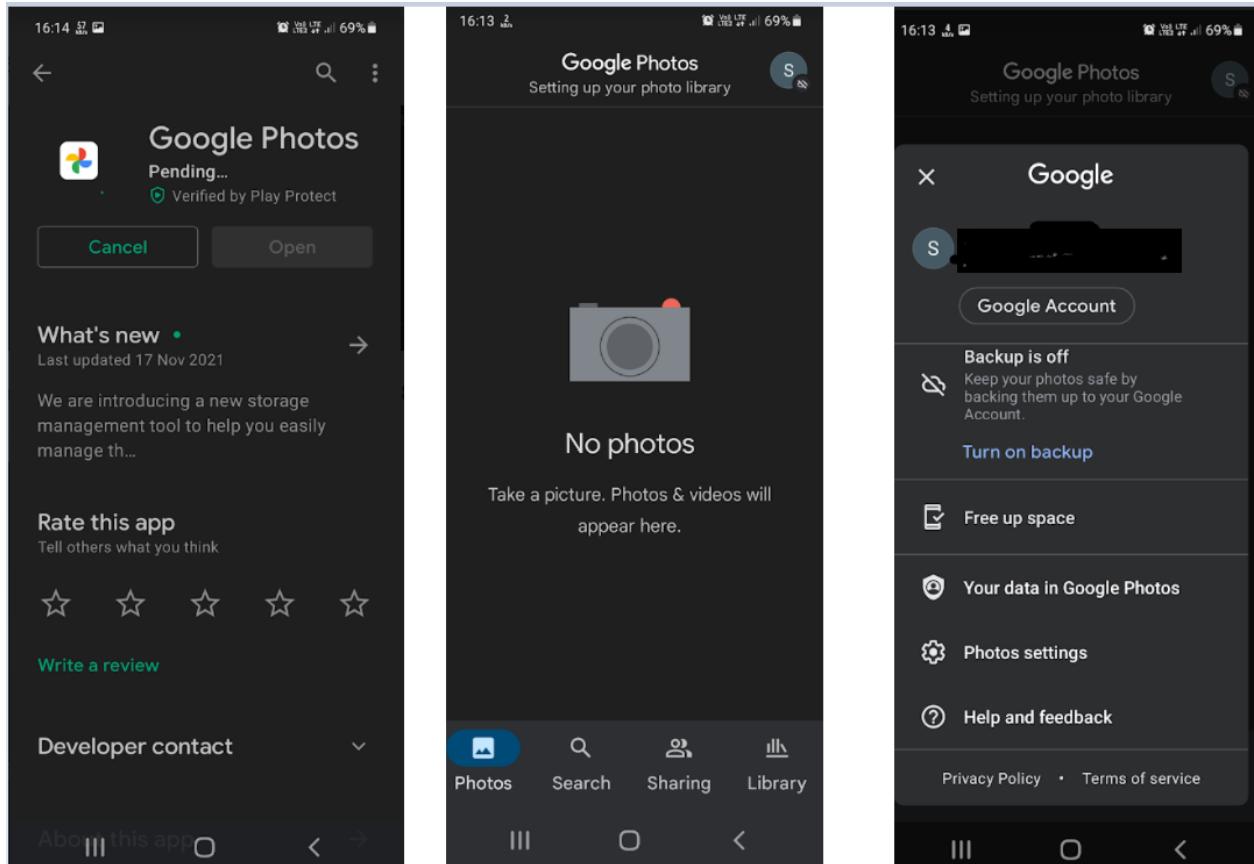

Turning off ads on Youtube

1. Open your YouTube app and Sign-in with your Google account.
2. You will get a prompt to purchase YouTube Premium as you open the app.
3. Click "Try Premium" and make payment with your previously added UPI payment app after choosing your preferred premium plan.

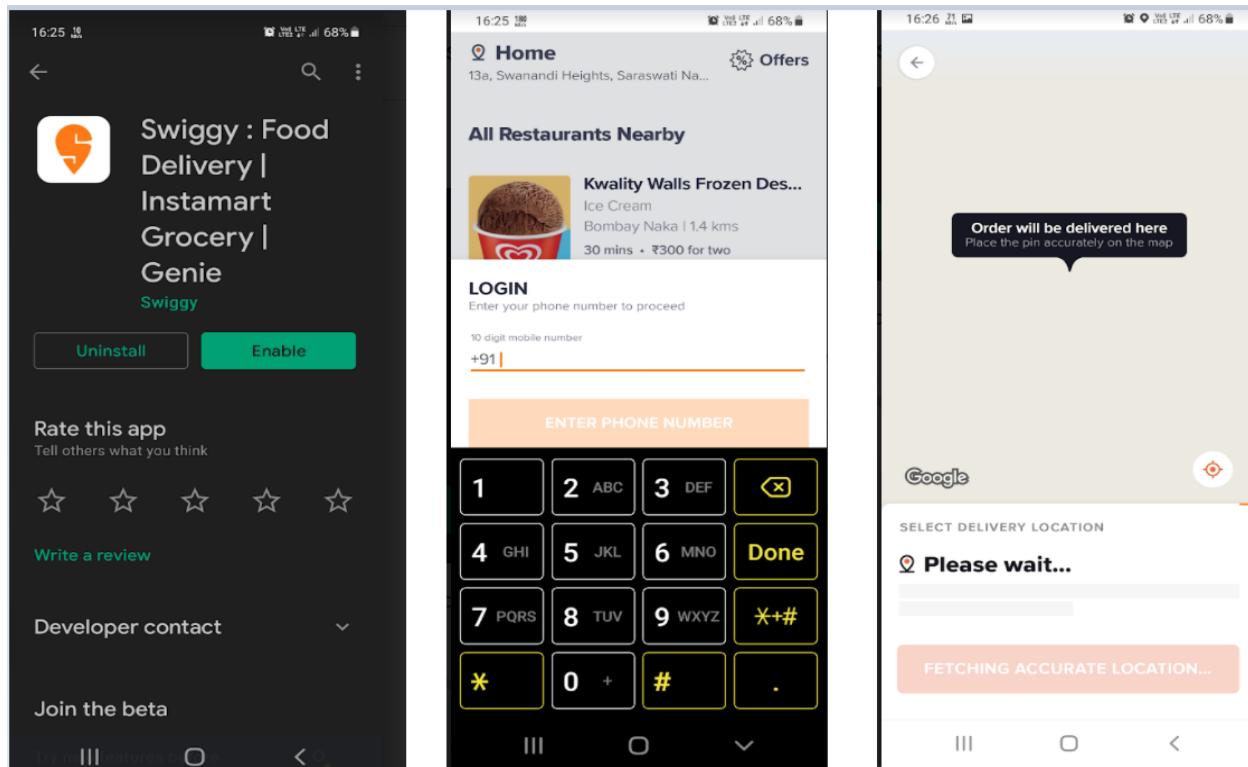

Backing up your photos

1. Open your device's Play Store and search for Google Photos.
2. Install the app and sign-in with your google account.
3. Now, click the icon showing your google account
4. Click Turn Auto-backup ON.

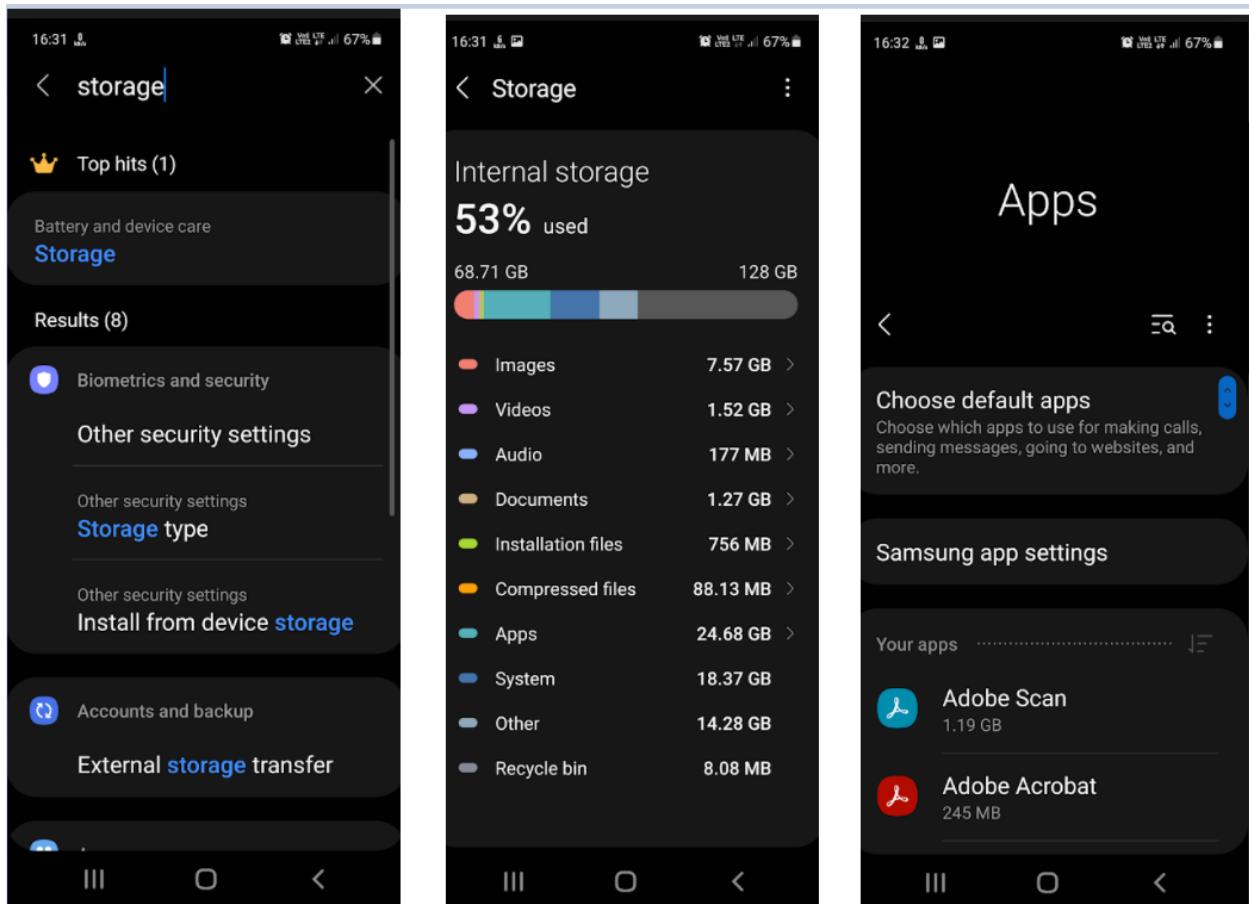

Ordering food online

1. Open your device's Play Store and search for Online Food Delivery apps such as Zomato, Swiggy, UberEats.
2. After installing the app Sign-Up using your phone number.
3. Set your delivery location by selecting the pointer on the map within the map.
4. Now add your address in the address section along with nearest landmark.
5. Now choose your favourite food items and checkout using your previously added UPI payment methods.

Managing Storage

1. Open your Settings.
2. Search for storage and memory.
3. Click on Usage to see which apps/media is using most space.
4. You can try clearing the unnecessary files to free up space.

Installing Anti-virus software

1. Open your device's Play Store and search for McAfee Mobile Security
2. Install the app, carefully read the Terms and Conditions and the click Accept.
3. Click Scan now to scan for malware and viruses.
