# Turning on Hotspot
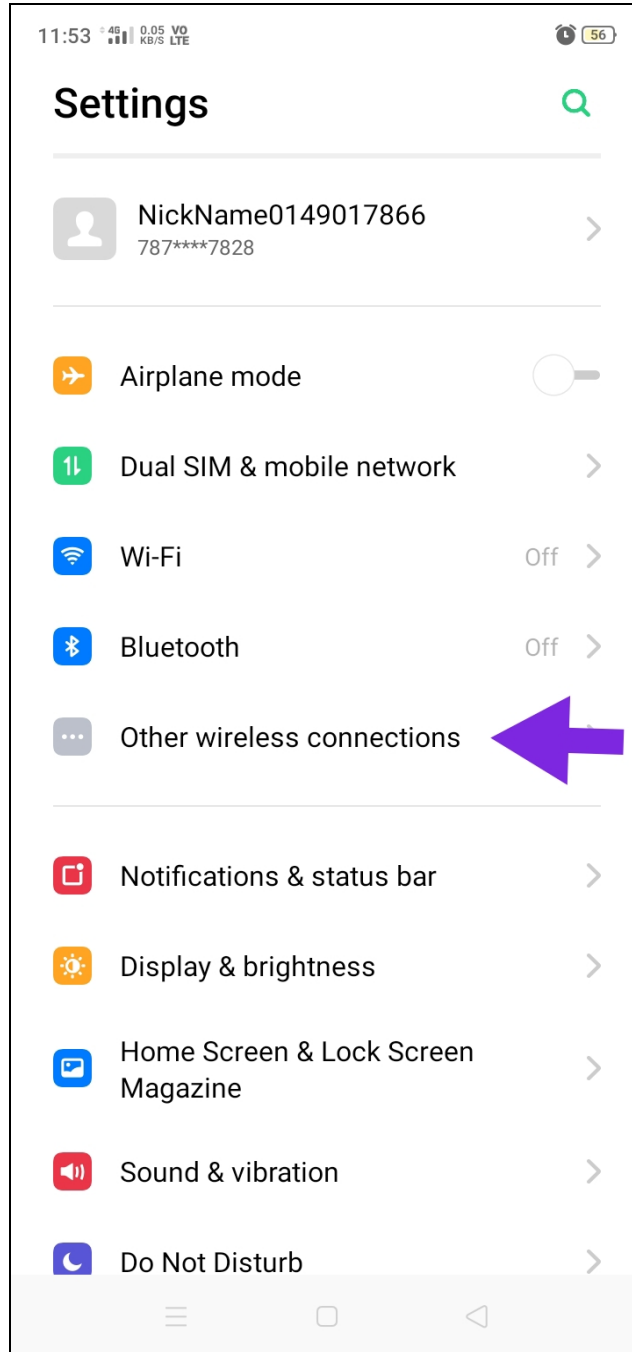

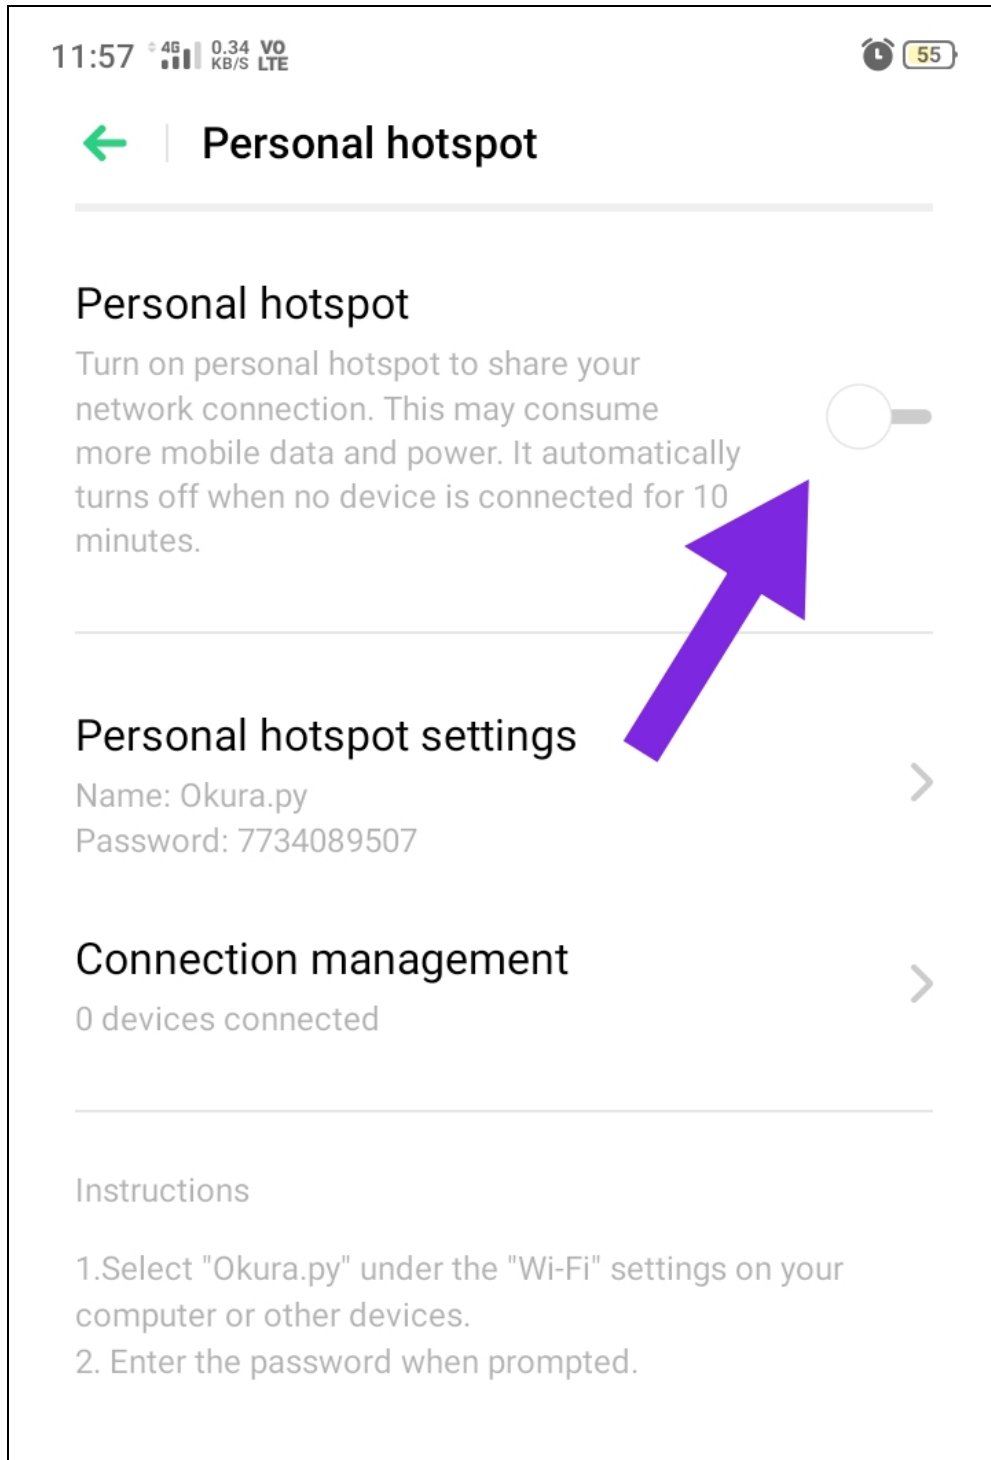

**Step1:** Go to **Settings** > **Other Wireless connections**.

**Step2:** There you can see the option of **Personal Hotspot**.

11:57

Personal hotspot

## Personal hotspot

Turn on personal hotspot to share your network connection. This may consume more mobile data and power. It automatically turns off when no device is connected for 10 minutes.

## Personal hotspot settings

Name: Okura.py
Password: 7734089507

## Connection management

0 devices connected

Instructions

1.Select "Okura.py" under the "Wi-Fi" settings on your computer or other devices.
2. Enter the password when prompted.

**Step3:** Click on the Toggle Button to turn it on.
